

CERTIFICATE

Concerning the application of Good Manufacturing Practices for Cosmetic Products (Cosmetics GMP) at the manufacturing of all personal care products

It is hereby certified that the production of all cosmetic products at Multifill bv in Mijdrecht is produced in accordance with the rules of Good Manufacturing Practices for Cosmetics products, in accordance with ISO 22716 on Cosmetics GMP

In accordance with Chapter 16 of the standard, the application of all cosmetic Good Manufacturing Practices of the ISO 22716 standard will be verified; evaluated, monitored and improvements made where necessary.

Internal audits are carried out in accordance with ISO 19011 (Guidelines for auditing management systems) by trained internal auditors who are independent of the relevant departments.

Furthermore, Multifill's documented quality management system according ISO 9001 and environmental management system according ISO 14001 are certified by BSI, accredited by, among others, UKAS and NvA.

The scope of these certificates is: mixing, filling, packaging, repacking, storage and distribution of liquid products such as cleaning and personal care.

The internal audits 2023 /2024 of ISO 221716 is focused on:

- Premises
- Equipment
- Raw Materials
- Production
- Finished products
- Laboratory.

The general internal audit of August 30, 2023 on the topics of premises, equipment and production gave the impression that Multifill can work according to Good Manufacturing practices with regard to personal care products.

In addition to the regular internal audits, a general internal audit must take place no later than August 31, 2024.

For supervising production in accordance with ISO 22716
